comment

Safety Information

Approximately 30,000 cars pass through the Karcher Road and Middleton Road intersection each day.

This area is currently one of the most crash-prone sites in Idaho.

Rapid development has resulted in greater traffic congestion.

Fewer crashes are expected after improvements are constructed.

Bicycle and Pedestrian Information

There are currently no bicycle lanes or continuous sidewalks on Karcher Road or Middleton Road within the project limits.

As a part of this project, sidewalks are recommended. See Recommended Improvements for more details.

Designated bicycle lanes will not be added for this project. Please refer to Nampa's Bicycle and Pedestrian Master Plan pathways for bike routes through this area.

The plan is available for download at:
www.cityofnampa.us go to Departments
then click on Planning and Zoning
